AWARDS AND HONORS

Dr. Bresalier is a leading researcher in gastrointestinal tumor biology, specifically the role of glycoproteins and carbohydrate binding proteins in tumor progression and metastasis, and their role as tumor-specific markers. He also directs several longstanding National Institutes of Health (NIH) funded research programs in cancer screening, early detection, and prevention. He has led several pivotal national and international chemoprevention trials for prevention of colorectal neoplasia. He is member of the National Steering Committee of the Prostate, Lung, Colon, and Ovarian Cancer Screening Project, and an investigator of the Early Detection Research Network. Dr. Bresalier has been an associate editor for the journals *Digestive Diseases and Sciences*, *Cancer* and *Cancer Metastasis Reviews*, section editor for the journals *Current Opinion in Gastroenterology*, *Current Treatment Options in Gastroenterology*, *Current Gastroenterology Reports*, and *Colorectal Cancer Reports*, has served on the editorial boards of the journals *Gastroenterology*, *Nature Clinical Practice Gastroenterology and Hepatology*, *Clinical and Experimental Metastasis*, *Cancer Metastasis Reviews*, and the *World Journal of Gastroenterology*, and is author and editor of over 300 articles, chapters and reviews in the field of gastroenterology and gastrointestinal oncology. A founding member of the Oncology Section of the American Gastroenterology Association (AGA), he has chaired numerous Digestive Diseases Week committees since 1987, and is past Chairman of the Oncology section of the AGA.
